

## DIARY OF EVENTS.

TUESDAY, SEPT. 24.

The trial of Czolgosz, charged with the murder of President McKinley, has begun at Buffalo. A jury was secured and five witnesses heard, including Drs. Gaylord, Mynter and Mann. Czolgosz's plea of guilty was not accepted by the court. An interesting bit of evidence was the testimony of Dr. Mynter, giving as the reason why the bullet was not found at the autopsy the fact that the family objected to further cutting of the body. Hanna, in an interview, says he will warmly support Roosevelt if President McKinley's policies are carried out. Leprosy being eradicated by the gradual extinction of natives in Hawaii. One man killed and 18 injured on a runaway freight train in Colorado. Porto Rican school board sends 26 boys to this country for instruction. WEDNESDAY, SEPT. 25.

Leon F. Czolgosz was found guilty of murder in the first degree in shooting President McKinley Sept. 6. The trial consumed 8 hours and 26 minutes. The defense called no witnesses. The experts reported that Czolgosz was sane. Judge Lewis spoke about 25 minutes for the defense, his principal plea being that if any doubt existed in the minds of the jury as to the sanity of the prisoner, he should be given the full benefit of the doubt. District Attorney Penney summed up for the prosecution in about 15 minutes. The judge's charge was brief. The jury was out about 55 minutes. Hardly had the good news circulated about Fall River that M. C. D. Borden, owner of the Iron Works mill, had advanced his operatives' wages 5 percent, when George A. Chase, treasurer of the Bourne mills, a Rhode Island corporation, employing 600 hands, posted a notice of similar import. Report from Baldwin in polar expedition shows all favorable as to the first stage. Reports of increased intoxication following anti-temperance law denied by Methodists. Spain starts a dragonnades to Morocco in interest of the captive Spanish children.

THURSDAY, SEPT. 26.

The athletes of Yale and Harvard met the representatives of Oxford and Cambridge universities at Berkeley Oval, New York, in track and field events, and, as was expected, the brawn and muscle of the American college boys proved to be too much for that of the visitors. The Americans won six of the nine events on the program. Points were counted for wins only, so that the Harvard and Yale men defeated their English opponents by a score of 6 to 3. Serious destination among miners and Indians at Nome. Colorado asks federal government to aid in fighting forest fires. Seth Low will "gladly accept" nomination for mayor of New York. Dr. J. A. German authorities in Carolina accuse American whaler of selling arms to natives. China to issue edict prohibiting importations of firearms and material; expatriate monuments to be erected in foreign cemeteries.

FRIDAY, SEPT. 27.

Leon F. Czolgosz, the assassin of President McKinley, was sentenced to be put to death by electricity during the week beginning Oct. 28, 1901. Before sentence was passed the assassin evinced a desire to speak, but he could not get his voice above a whisper, and his words were repeated to the court by his counsel. "There was no one else but me," the prisoner said in a whisper. No one else asked me to do it. Although the first contest for the America's cup resulted in "no race," be-

cause of a lack of wind, the relative performances of the Columbia and the Shamrock II have given yachtsmen a fair line on the merits and capabilities of the two boats. And this, tersely put, is the lesson the experts have deduced from the contest: The cup will stay here. Boston wholesale grocers opposed to the proposed combination form d in New York. Groveland, Mass., town hall burned. More reindeer added to the Alaska herd. Coal strike predicted in Pennsylvania for next spring. Great forest fires in Hawaii threaten plantations and forests. Secretary Gage receives \$6150 conscience money. Government orders release of Chinese students held in San Francisco. Judge Humphreys, vindicated, starts for Hawaii; it is to try to oust Dole in favor of Sewall. Botha's forces moving northward. German socialists overthrow Bernstein. General Blindin Blood is returning to India. Move for commercial union of Balkan states. Racial friction in Canada mars Duke of York's visit. London Times advises preparations for canal treaty. Report that Boers will take up a large tract of land in Mexico. Arctic explorer Warmuth of Boston and Robert Stein arrive at Brigus, N. F. President McKinley's estate is estimated at \$200,000. This will give Mrs. McKinley the use of the property her lifetime and at her death the remainder is to go to his brothers and sisters, share and share alike. Czolgosz makes a scene at Auburn prison. His nerve force scares him and he yells with fear. On his trip from Buffalo the assassin talked with his keepers expressing regret for his crime and sending messages to his father. The Boers appeal to the peace conference of the Hague.

Sir Thomas Lipton says it was a fair and square race, and he's just as hopeful as ever; will win he believes, if the Shamrock gets a 9 or 10-knot breeze. Lipton's Erin struck by the Gresham and slightly damaged. Belief that Fall River manufacturers will grant a general increase of 5 percent in wages. Elkes wins the championship series from Waltham. St. Louis man offers President Roosevelt a fine saddle horse if he will accept him. Molineux hears the good news of the granting of a 1447 trial. Brooklyn democrats said to have shelved Coler; probably that Lewis J. Nixon will head the Tammany ticket. Wife of John H. Brown, Boston insurance agent, alarmed over his continued absence since Sept. 19. Harvard plays a fairly fast game and defeats Williams 16 to 0. Cruiser Cleveland launched at Bath. Six thousand square miles of flame on the Pacific coast.

MONDAY, SEPT. 30.

What is considered the greatest disaster to American arms in the history of the Philippine insurrection is just reported from Manila. Company C of the 9th United States Infantry was practically wiped out in a fight with insurgent 72 men comprising the company gents in the island of Samar. Of the 48 are reported killed. Of the 24 who succeeded in escaping 11 are wounded. Of that number was 1st lieutenant E. A. Bumpus, son of Judge Bumpus of Quincy, Mass. A soldier from the company of regulars from Fort Wayne, Mich., who was guarding the raft in which the body of the late President McKinley lies fired a shot at one man who refused to heed his challenge. The shot was diverted by another man who appeared from another direction and an effort was made to stab the guard. Military regulations prevent either the officers or the men of the post from being quoted on any matter connected with their services and consequently details are meager. Kitchener calls for 25,000 trained men for South Africa and asks the privilege from the home government to hang all traitors and assassins.

A Manila Tammanyite

Manila, Sept. 30.—Juan Cardona, who until recently was president of Gerona, province of Tarlac, and who was appointed secretary of the Tarlac provincial government, has been arrested on charge of accusing people of crimes for the purpose of extorting money from them. More than 50 persons assert that they have even surrendered title deeds to property.

Cardona had been considered one of the most reliable natives holding pro-American views. An examination of his record, however, shows that for several years he was a bandit and that he served two terms of imprisonment, aggregating five years.

Hawaiian-Manila Cable

Washington, Sept. 30.—Mr. John W. Mackay, president of the Postal Telegraph company, the Commercial Cable company and the newly organized Pacific commercial cable company, has been in Washington for a few days with George W. Ward, vice-president of the cable companies, in the interests of the new organization. Their mission was principally to make arrangements regarding landing privileges for their cables, which it is proposed to run from San Francisco via the Hawaiian islands to Guam to Manila.

He sent a representative to inspect the railway by which the court will return to Lukachow, from which place chairs and carts will be used to bring the emperor and empress and their retinues to the north-west gate of Peking. Li says the court will arrive on the Chinese new year's day, in March.

## A Lady's Lunch

Has been rudely defined by some cynic as "slops and sweets." And after all there's more truth than poetry in the definition. Ice cream and cake may satisfy the palate, but they are far from satisfying to the stomach, which requires that food be nutritious first and nice afterward. By careless eating women pave the way for stomach "trouble," and its kindred miseries.

Dr. Pierce's Golden Medical Discovery is confidently commended as a cure for diseases of the stomach and other organs of digestion and nutrition. By curing diseases which prevent the assimilation of food it enables the body to be built up and strengthened in the only way known to nature—by food digested and assimilated.

"For twelve long months I suffered untold misery," writes Mrs. Mollie Colgate, of Randolph, Charlotte Co., Va. "No tongue could express the pain that I endured before I commenced taking Dr. Pierce's medicine. I was not able to do anything at all. Could not eat anything except bread and tea—or if I did the top of my head hurt so it seemed it would burn like fire, with all that I could do it would burn like fire. But now, since using your 'Golden Medical Discovery' I can eat a little of almost anything I want, and can do a good day's work as well as anybody can. Am better than I have been for years."

Dr. Pierce's Pleasant Pellets cure sick headache.

The oldest veteran to march in the parade at the last Grand Army reunion was John A. Reed of Decatur, Ind. He is 103 years old.

It is said that some of the closest friends of Pension Commissioner H. Clay Evans, have received positive information that President Roosevelt intends to retain him as the head of the pension bureau throughout his administration.

Among the many floral tributes at the funeral of the late President McKinley was the following sent by Mrs. Calista R. Jones of Bradford, national W. R. C. president, in behalf of the order: An emerald wreath of palms and yellow roses on a floral easel. At the base were clusters of yellow roses and at the top clusters of yellow roses. The whole tied with yellow satin ribbons, this being the national color of the order. A letter from Col. Moore, committee on flowers, acknowledges the receipt of tribute, and says, "It now decorates the receiving tomb where the martyred President now sleeps forever."
